## ATTENTION, LADIES!

We cordially invite every lady in Prescott to visit our store on Wednesday and Thursday, February 26 and 27 and witness a SPECIAL DEMONSTRATION of

### Richards' Magic Stamping Pad

.....For Ladies' Fancy Work.....

This STAMPING PAD IS SIMPLY A LITTLE WONDER and will do so many things in stamping any PICTURE or DESIGN on velvet, silk, satin, linen, wood, glass, china, etc., etc., that it must be seen to be appreciated. It will do your stamping at home for years. No paint, no powder, no hot iron, no muss, no fuss of any kind. A little child can use it perfectly. A beautiful Pads only \$1.00. We are sole agents.

### Wednesday Special

Sale of all Kid and Fabric Gloves.

### Thursday Special

Sale of Flowers, Feathers and our entire stock of Ladies' Millinery.

## M. Goldwater & Bros

"THE BEST ALWAYS."

### Brighter Than The Stars!

The Diamonds we have for sale are Pure, Brilliant, Blazes of white.

So much for the goods. The prices exactly represent their worth. Nothing more, nothing less. Every dollar you pay us for a diamond is represented by a quivering, rainbowy flash of beauty.

## GEO. H. COOK & Co

ARIZONA'S LEADING JEWELERS.

## REJECTED!!

An old man was refused insurance by a company because he was 94 years old. "What of that, he cried, 'if you refuse to insure me, I will not be insured by any other company.'"

So you are right when you say you can get along without Chas. & Son's Seal Brand Coffee. But it is reasonable to not give this famous coffee a single trial? A wagon, you know, can get along with out a wheel, but it goes hard. In order to place "Seal Brand" within the reach of all we have reduced the price to 45 cents per pound.

## R. H. Burmister & Sons Co.

Wholesale and Retail Dealers.

A Complete Stock of Hardware and Mining Supplies.

Sole agents for Vigor Dynamite.

## It won't chop wood

but Sargent's Gem Food Chopper will chop raw meat, cooked meat, vegetables of all kinds, fruit, crackers, bread, eggs, cheese, nuts, figs and other foods, and grinds.

## It will chop

them all rapidly, easily, coarse or fine, in uniform pieces, without mashing, squeezing, tearing or grinding.

SAMUEL HILL, Prescott.

## Merchandise or Mining Supplies

Remember the Old Established House

## The O. K. STORE

Staple and Fancy Groceries, A Full Stock of Men's Furnishing Goods Always on Hand. All Goods Fresh and Up-to-Date.

## JOSEPH DOUGHERTY, Proprietor

## HERMANN VOGEL, Wholesale Liquor Dealer

PRESCOTT, ARIZONA. ON THE PLAZA. Telephone 144.

Complete Stock of Fine Whiskys and Cordials for the Trade

Dealer in PABST Brewing Co.'s Milwaukee Beer.

## THE LAST SUMMONS

Mrs. John Burching Dies at Her Home at Bellevue, Iowa, Last Friday.

The Bellevue Iowa, Leader contains the following notice of the death of the sister of John W. and Joseph Dougherty of Prescott, who spent several months here a few years ago.

The announcement of the death of Mrs. John Burching, which took place Friday, February 7th, at 11:30 p. m., caused universal sorrow, for she was a woman who was highly regarded by her many friends and one who endeavored herself to all with whom she came in contact. Mrs. Burching was of a retiring disposition, strictly a home body, yet her friends were legion, as was testified by the hundreds who came to view her remains and to express their sympathy with the husband and immediate relatives.

Mrs. Burching has been ill less than two weeks, but her illness was of such a character that the best medical skill, including Drs. Bigelow and Guthrie of Dubuque, could not stay the hand of death, and being made aware of her hopeless condition, she gave some of the directions for her funeral which she wished to have carried out. Her end came peacefully and without pain.

The deceased, whose maiden name was Lizzie Dougherty, was born in Richland township, March 31, 1856. Her parents were Mr. and Mrs. Ed Dougherty. She came to Prescott in 1884 and Nov. 26, 1883, was united in marriage to John Burching, and this place has been their home continuously since that time. The deceased is also survived by her mother and two brothers, John and Joe Dougherty residing in Arizona, and Mrs. Lew Webber of Bellevue township.

The funeral took place Tuesday at 10 o'clock a. m., from St. Joseph's church, a solemn mass being conducted by Rev. Father Bos, Hugoman and Brady of Lamotte. There was a very large attendance of friends gathered to pay a last tribute of respect to the memory of the deceased. The floral offerings placed on the bier, the gifts of loved ones, were many and beautiful.

## THE NEWS OF MAYER

Railroad, Mining, Social and General News Notes From a Busy Business Center.

The Mayer Place Mining company is putting up some new machinery and expects to have its property on a paying basis soon.

Mr. Frankston of Chicago is visiting Mr. Seaton's family.

The many friends of Mrs. J. S. Johnson are glad to hear that she has entirely recovered from her late illness.

J. B. Jolly, the county school superintendent, visited the public school here February 18.

Mrs. Gus Moe is in Phoenix on a visit to her niece, Miss Gertrude Godard.

James Cash comes in from the Bradshaw mountains with his pack train about twice a week for provisions and mail.

The French Lily mine in Crazy Basin, owned by Joe Mayer and Jess W. Davis, is looking fine. They have loaded shafts on it, the new branch which is down seventy feet with a fourteen-inch vein of rich black sulphide ore.

A Mexican sheepherder who was accidentally shot in the leg some time since, is rapidly recovering under the skillful treatment of Dr. Looney.

The Mayer lodging houses are receiving a new coat of paint which improves their appearance.

Mrs. W. H. Michael is in Phoenix on a visit to friends.

St. Valentine's mail pouch was heavily laden with Cupid's arrows for the school children of this place on the 14th.

We are pleased to note that little Nellie Nellie is recovering from her illness.

Work on the new railroad from Mayer towards the Bradshaw mountains is progressing with a small force of men.

The Indian inhabitants of this place have quite a village on Big Bug creek. Some of the dusky belles look like modern Pocahontases in their holiday attire.

Mrs. E. D. Seaton will leave for Chicago next Friday on a visit to her mother.

J. S. Johnson, assayer at Mayer, has a fine new forty dollar camera, with which he is going to take pictures of the mines in this vicinity.

The dealer for the crab tale in the Mayer saloon is doing a flourishing business, much to the detriment of certain young men's cash accounts.

## The News of Mayer.

Mayer, February 23 (Regular correspondence).—The construction train loaded with timber for the new branch railroad came down to Mayer today.

Chas. Goddard visited this town today on his way to Prescott.

Miss Lena Johnson, of Williams, is visiting her sister, Mrs. L. P. Nellis.

Yesterday E. D. Seaton received six first-class registered stock Belgian hares from Prescott.

The Mayer school house flag floated yesterday in honor of Washington's Birthday.

It is reported that they have struck a large body of native copper in the Iron Queen mine.

Three of Mayer's young society men went up to Big Bug Friday to participate in the pleasures of a boy there.

The many friends of Mr. Alexander are glad to hear that the old gentleman is improving under Dr. Looney's care and slowly gaining in health. Mr. Alexander is one of Arizona's pioneers and can relate many interesting tales of early days.

## WILL PROSPECT FOR OIL.

Douglas, Lacey & Co. Contract to Sink One or More Wells in Lonesome Valley Section—4000 Acres of Land Being Pooled.

Machinery Already Ordered and Work Will Commence Within Three Weeks Sinking a Well—Discovery of Oil Means a Boom for Arizona.

The Journal-Miner has repeatedly taken occasion to call attention to the extensive operations of Douglas, Lacey & Co. in this section of the country and the part they were taking in the development of its resources. The firm is an enterprising, energetic one and it has as its manager of its Arizona business a well-known progressive man in the person of Captain L. D. Phillips.

Aside from its recently constructed concentrating plant at Val Verde, the firm has devoted its energies in Arizona exclusively to mining. In California they have very extensive oil interests and own the largest refinery in the state, located in Los Angeles.

After an examination of the alleged oil territory in Lonesome valley, and a favorable report thereon by their mining expert, the firm decided to bore one or two wells in that vicinity for the purpose of prospecting the field and determining whether or not it was rich in oil.

Contracts have been signed up with them by the holders of about 4000 acres of land in that vicinity and deeds executed and placed in trust.

A company has already been organized by Douglas, Lacey & Co., under the name of the Lonesome Valley Oil Company, under which organization operations will be carried on.

With Douglas, Lacey & Co. to do, and the machinery for sinking the well has already been ordered to be shipped from Los Angeles and Major Russell stated today that within the next three weeks work will be commenced drilling. Work will be pushed just as rapidly as possible and the ground will be thoroughly prospected by the sinking of two or more wells in case the first one fails to reach oil. Mr. Spencer says the company will spend from \$25,000 to \$40,000 prospecting the field, if oil is not discovered with a less expenditure, before abandoning it.

The success of this enterprise would prove one of the greatest boons to Arizona that could ever happen to it. With the present force reserve system covering all the timber lands of this section and with the prospect of the discovery of oil, it would be a solution of cheap fuel which could not fail to prove of the greatest advantage to the territory.

Douglas, Lacey & Co. also deserve great credit for undertaking the experiment.

## New Mail Contracts.

Contracts under the recent bid presented for carrying the United States mails have been awarded as follows:

Congress to Harqua, Hala, Ed Zigler.

Congress to Martinez, Moses Dufey.

Congress to Ocala, not awarded.

San Antonio to El Paso, J. R. Lowry.

Kirkland to Placerville, not awarded.

Columbia to Hot Springs, J. R. Lowry.

Hot Springs to El Paso, J. R. Lowry.

Crown Point to Briggs, Frank Goodwin.

Minneapolis to Hooper, J. R. Lowry.

Prescott to Crown King, J. R. Lowry.

Prescott to Jersey, J. R. Lowry.

Prescott to Juniper, J. B. Hoeker, jr.

Kymo to Simmons, J. R. Lowry.

Richman to Bumble Bee, J. R. Lowry.

Richman to Mayer, J. R. Lowry.

Stoddard to Mayer, J. R. Lowry.

Providence to Huron, J. R. Lowry.

Chaparral to Huron, J. R. Lowry.

Dewey to Camp Verde, J. B. Hoeker, jr.

## A Pleasant Party.

Mrs. J. W. Akers entertained the members of the Christian Science church at her pleasant home in West Prescott last evening. One of the features of the evening was a test of scriptural knowledge. Cards had been prepared containing a number of passages of scripture with a blank left at the end of each quotation and the guests were requested to fill in the blank by writing the name of the book of the Bible from which the quotation was taken. The test proved quite interesting and also that a person will often be perfectly familiar with a quotation and yet not remember the book containing it.

About 350 feet of development work has been done on the Fortuna claim, exposing a small but exceedingly rich vein of silver and copper ore. The outlook for a big mine here is most promising, and a large adobe building has been erected for the use of employees. The Mina Grande is a copper property recently purchased by the company, and an immense body of ore is now exposed. There is a vast amount of time on this property also, which will facilitate greatly the reduction of the ore on other claims. The smelter will be erected in a short time and the money to carry out the above-named plan is one of the most honest play in the world. The statement is made that the play is made of the dramatic homegrown thought of honest hearts, not told for publicity but for honor, loyalty, and in the telling there is a mingling of tears and pathos that, without the dialogue, alone would entitle the production to the kind of recognition from the public that means success. The opera house, Friday February 28th.

Wilkesbar, Pa., has had a century celebration of the first burning of anthracite coal in the house in which it was done. The original grate is still there and did duty as successfully as it did for Jesse Fell when he drew in the face of contemporary democratic opinion by trying to "burn stones."

## NEWS, NOTES AND COMMENTS.

Hugh McGovern, a brother of Terry McGovern, easily knocked out the Chinese pugilist, in the fifth round at Covington, Ky.

Adolphus Trumley of Geary, Okla., suspected in Don A. Patrick of being too intimate with the (Trumley's) wife and fired four bullets into Patrick's brain, killing him instantly.

A. H. Gould, defaulting cashier of the Bellevue, Nebraska bank, who lost by speculation a quarter of a million dollars has been sentenced to eight years in the penitentiary.

Ramon Galindo, leader of the Island band of outlaws in Texas, who in 1898 ambushed and killed Captain Jones of the First Texas rangers, has been captured by Ed Bryant, an ex-ranger. Galindo has been hiding out recently because involved in a shooting and in Don A. Patrick, New Mexico, and his return from Old Mexico was reported to the officers who have since been on the lookout for him.

One of the Chicago Armour's, a young boy, has been talking back to his father, King Edward, at a late reception, chastely attired in knee breeches and velvet coat and frills and things like that, with a neat little tin sword at the side and he has been honored by being allowed to kiss his majesty's hands. When Chicago goes in for "society" she goes in for a complete aristocracy, as Aristophanes used to say.—E. X.

George Harper, in charge of the commissary at Santiago, in Northwestern Durango on an extension of the Mexican International railway, now under construction, is in jail with charges of a discovery of some needed changes, which required a close down.

Captain L. D. Phillips of Douglas, Lacey & Co. has taken a bond on the Perry and Elk mines located about eight miles south of Prescott from their owner, Charles Capelli. The Perry is one of the old and well known mines of this county, having produced a large amount of silver ore in the past. The Elk is a place of considerable value and is a solid body. The claims are on the same lode as the Zero mine, which has also produced thousands of dollars worth of rich silver ore.

C. F. Ribbet, who returned today from a visit to the El Paso Mining company, says the property continues to keep up its lick with every foot of development and is looking in shape to develop a large body of ore. The experimental runs which have been made by it have proven very satisfactory. Douglas, Lacey & Co. will at once commence operations with a view to mining which they are operating.

John Berrie yesterday sold six claims on Lynx creek to California parties, a part cash payment being made. The sale was negotiated by J. C. Martin, the agent. The claims are in the Lynx creek district, and are being worked by running a drift or crosscut or two, so this will be done just as soon as the drift is sunk. The work is being done by running a drift or crosscut or two, so this will be done just as soon as the drift is sunk. The work is being done by running a drift or crosscut or two, so this will be done just as soon as the drift is sunk.

The Pyramidal Gold and Copper Mining company, which has been recently organized, has commenced work sinking two shafts on their property which adjoins that of the Bradshaw mountains. The company is located in Arizona, arriving in Los Angeles yesterday on their way to their home in the east by way of San Francisco. As might be inferred from the name of the company it is a Pennsylvania concern, and most of the stock is held in the Quaker state. The only property being worked at present is the Mulholland mine, about fourteen miles from Prescott, and large operations have been carried on upon a large and extensive scale. In all there is about a mile of underground workings, there being five levels. In all of which large bodies of ore have been uncovered. The ore runs on an average about \$5 to the ton, and an immense amount is in sight. Two hundred and fifty tons of ore are on hand, and there is also a large concentrating plant. About eighty-five men are kept at work, and at present a new shaft is being put down, from which exploratory work will be continued in new ground. The Poland Mining company is carrying out a gigantic work in this district, and most of the stock is held in the Quaker state. The only property being worked at present is the Mulholland mine, about fourteen miles from Prescott, and large operations have been carried on upon a large and extensive scale.
